

**SATELLITE BEACH RECREATION BOARD
MINUTES FROM MEETING HELD NOVEMBER 10, 2015**

The meeting was called to order at 6:20pm on November 10, 2015 by Chairman Braswell. Members in attendance were Clint Braswell, Mike Hensley, Charlie Graham. Also present was Kerry Stoms, Recreation Director.

The minutes from the August 11, 2015 were reviewed and approved.

Improvements to the Satellite Beach Civic Center: The board discussed, in generalities, possible improvements to the Civic Center. Improvements include permitting, to the greatest extent possible, the use of the Civic Center for recreational purposes. This may require a rethink for the storage of city records now in the Council Chambers; renovate the lobby, restrooms, kitchen (retain as a full kitchen), stage, storage, auditorium (as large as it can be designed), one additional meeting area-probably smaller; retain within the redesign the history/heritage of the 60's feel, but do not keep the building looking like it was built in the 60's.

Competitive Ball Teams: The board discussed recommending a change to Resolution #941, to adjust the fee for competitive ball teams approved to use City ball fields. The recommended change is from \$15/player to \$500/team.

Fee for lighted soccer/football fields: The board recommended including a soccer/football field light fee of \$4/player per season. This would affect the Satellite Beach Soccer Club. Football would only use the lights for two weeks, so the board felt that would not warrant a \$4/player fee for that league.

The meeting was adjourned at 7:20pm.
